DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 2, 7/1, and 7/2/1 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP-2002264780 in view of JP-8119065.

JP-2002264780 discloses an electrically heated window comprising a glass panel with a plurality of heaters and a plurality of bus bars and the heaters are connected in parallel or in series and a changeover switching means to supply power to the heaters in a series or parallel connected manner. JP-2002264780 does not disclose two glass panels. JP-8119065 discloses two glass panels (4, 5). It would have been obvious to one of ordinary skill in the art at the time the invention was made to have included two glass panels of JP-8119065 in the heated window of JP-2002264780 because, two glass panels allows for the heaters to be protected from the elements.

Allowable Subject Matter

3. Claims 3, 4, 5, 6, 7/3/2/1, 7/4/3/2/1, 8, and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHAWNTINA FUQUA whose telephone number is (571)272-4779. The examiner can normally be reached on Monday-Friday 8-4:30 pm.
